เวลา ๑๔.๐๐ น.

You may recall my email last year about scholarship/internship programs by corporate donors at Central European University. I am Associate Professor and Head of MS in Finance at CEU.

We have just confirmed the programs, once again on the MS in Business Analytics and MS in Finance, for 2020-2021. We will have at least 10-15 awards, and very likely more:

- Future of Big Data: Offered by a London boutique investment firm; up to 100% scholarship, mentoring, possible internship in London
- Morgan Stanley: Paid internship possibly leading to full-time job, up to 60% scholarship
- Women in Technology: Offered by BlackRock; up to 100% scholarship, mentoring, possible internship leading to full-time job.

The application deadline is January 30. Applicants without GMAT/GRE scores can take CEU's online test after applying. Applicants must have a quant background, e.g. economics, statistics, science, computer science, engineering. The programs are based in Budapest with study trips to Vienna. They are designed to allow students to enter an internship or job at any time.

Could you please share the attached poster or the links below with your graduating students and alumni?

CEU is a U.S. university also accredited in Hungary and Austria with campuses in Budapest and Vienna. In Economics, it is ranked #101-150 by ARWU ShanghaiRanking and #151-200 by QS. The MS in Business Analytics and MS in Finance are ranked #50 and #89, respectively, in the QS Business Masters Rankings 2019.

Thank you very much for your help.

Kind regards,

Peter
